EDUCATION

University of California, Berkeley **Expected May 2028**
B.A. Data Science & B.A. Cognitive Science **Cumulative GPA: 3.89/4.00**
Coursework: Foundations of Data Science, Structure & Interpretation of Computer Programs, Linear Algebra

EXPERIENCE

Sendo **Berkeley, CA**
Founder & Product Lead *Apr. 2026 – Present*
- Drove 70% 30-day retention and 400+ logged climbs across 40+ beta users by launching an AI form coach MVP
- Increased weekly engagement 133% (30 to 70 climbs) by A/B testing body cues prioritized from user feedback
- Validated the core user need (80% of 100 surveyed climbers lacked form feedback) through 15+ discovery interviews
- Led a 3-person product team and built the MediaPipe pose model, FastAPI backend, Supabase database, and auth

Cal Hockey **Berkeley, CA**
Product & Software Engineering Intern *Aug. 2026 – Present*
- Spearheaded a live sideline tagging MVP that cut the coaching staff's daily film review 80%+ (2–3 hrs to 20 min)
- Won coaching staff approval for a 4-game pilot with a PRD and Figma prototype built from 12+ user interviews
- Reduced scoring errors 67% (12 to 4) in the pilot by validating the new workflow against remote scoring
- Drove adoption by the full coaching staff at every game since, and game logs now feed a planned AI scoring tool
- Built the Next.js frontend and Supabase data model for a stats web app, and reviewed the team's pull requests
- Wrote Jira tickets with acceptance criteria for 2 engineers and 1 designer, targeting 97% faster clip lookup

Outamation **Southlake, TX**
Data Science Intern *Nov. 2025 – Mar. 2026*
- Saved a 15-person mortgage ops team 10 hrs/week and cut handling time 75% by automating PDF data extraction
- Translated stakeholder interviews into product specs and Python extraction scripts (PyMuPDF, pdfplumber)
- Raised human-rated search relevance 54% (200-query test set) by building a RAG pipeline (LlamaIndex, FAISS)
- Won stakeholder sign-off on the final search design by presenting data-driven tradeoffs from the benchmark

PROJECTS & LEADERSHIP

S.L.I.C.E. Athletics | *Co-Founder & Vice President, Walnut, CA* *Nov. 2022 – Aug. 2025*
- Co-founded a nonprofit serving 150+ students with disabilities by building partnerships with 5 schools and centers
- Designed and taught weekly adaptive sports, academic, and social-skills programs, improved with parent feedback
- Owned the $2,000+ budget and all spend tracking, sustaining 3 years of weekly programs and seasonal events

Interactive 3D Object Gallery | *RoseHacks 2026* *Jan. 2026*
- Placed 2nd of 40 teams by scoping the MVP to one core feature so our team of 4 shipped a demo within 24 hours
- Engineered the Bluetooth (BLE) integration that lets an ESP32 hardware remote rotate the gallery's 3D models

Vehicle Cybersecurity Research | *Polygence Research Intern* *Jun. 2024 – Feb. 2025*
- Ranked 8 vehicle cyber defenses on cost, feasibility, and attack coverage by synthesizing findings from 40+ studies
- Published the research and was selected as a speaker at the Bay Honors Consortium to present the defense rankings

SKILLS & INTERESTS

Product: Product management, user research, PRDs, user stories, acceptance criteria, roadmapping, KPIs
Delivery: Cross-functional collaboration, Agile/Scrum, Jira, Confluence, Figma, A/B testing, prioritization
Data & AI: SQL, Python, Excel, Tableau, RAG (LlamaIndex, FAISS), LLM evaluation, Claude Code, Cursor, Codex
Engineering: Next.js, React, TypeScript, FastAPI, Supabase, PostgreSQL, AWS, GCP, Azure, Docker, Git/GitHub
Interests: Bouldering, running, tennis, pickleball, Korean BBQ, malatang, disability advocacy, car cybersecurity
